Our Firm is pleased to announce a new member in our team, Mr. Marcelo Ureña, who is an experienced foreign trade advisor. With this professional, we strengthen our staff, in the interested to offer to our clients a wider set of services to help them in business results even further.

Mr. Marcelo Ureña worked in the Dominican Customs office for 20 years, gaining a vast experience in foreign trade and customs procedures. He was member of the team that led the Customs Automation Project together with a very important Korean company.

To import or export to and from Dominican Republic is easy, however there are many risks associated to international transactions (Purchases and sales), e.g. over payments for incorrect product classification, bad customs clearance, improper import or export documentation, post clearance audit process conducted by the customs agency and other risks.

Therefore, it is our commitment to expand the staff support to provide to our clients a higher level of service, knowledge and expertise as they expect from us in foreign trade relates.

For those entire one that are interested to make business in Dominican Republic, we are a different choice to provide them any support on Audit, taxation, Accounting, Consultancy and Foreign Trade.
